POINT. CLICK. TUNE.**

### *Realtime Data Access!*

With the all new SCT Raptor Datalogger you get the fastest Realtime PCM Data access at an amazing 62 samples per second!

### **Quick Troubleshooting**

Quickly troubleshoot bad sensors, random driveability issues, and DTC Codes

### **Datalog & Playback**

View live data or playback previously logged sessions. The only usable tool for high HP tuning!

### **Troubleshoot & Clear Diagnostic Trouble Codes**

Easily view, read, and clear OBD-II Diagnostic Trouble Codes

### **Analog Inputs**

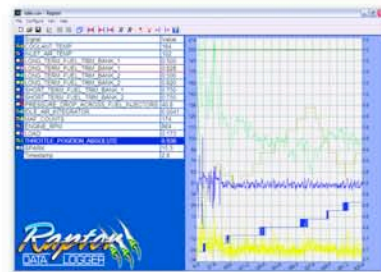

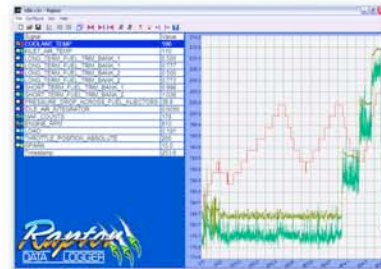

View, log and playback up to 4 analog inputs (0-5v) including Wide Band Data

There is nothing more frustrating than trying to diagnose an intermittent PCM problem without data or trying to custom tune your 1996-2004 OBD-II vehicle without having access to all of the vehicle's computer information.

SCT's new USB Raptor OBD-II Data-Logger allows you to monitor & record all of your vehicle's computer data and up to 4 external analog signals at a sampling rate of 62 samples per second. Now you can datalog both your PCM data and wideband data using the same unit!

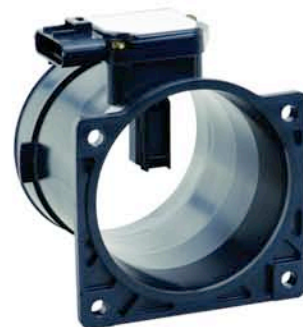

- Fastest OBD-II Data-Logger on the market
- Works with all Ford 96-04 OBD-II Vehicle's
- Lightning Fast 62 samples per second
- Analog Inputs to allow logging of up to 4 inputs (0-5v)
- View / Clear / Check Engine Trouble Codes
- View Data Live or export saved data to other applications
- USB / Windows Based for easy Plug & Play setup
- The ONLY Realtime Datalogger on the market! Raptor uses SCT's RAPPID Technology!™
- Datalog Realtime PCM Data & Wide Band Data simultaneously

### **ELIMINATE YOUR PEGGED MAF METER!**

SCT's new BIG-AIR Mass Air Meter may be the last MAF meter you will ever buy. No more sending your meter back to be recalibrated, DOA meters or having to switch meters when increasing horsepower! Our 90mm 'Suck Thru' BIG-AIR MAF Meter support up to 825HP, will NOT PEG and are direct replacements for all 2000+ Ford Lightning's & 2003-2004 Cobra's.

- Direct Replacement for 2000+ Lightnings & 2003 - 2004 Cobra's
- Metal reinforced mounting bolt hole rings to prevent cracking
- Recalibration NO longer required when increasing horsepower or changing fuel injectors
- 90mm Plastic Housing for reduced heat soak
- OEM Quality Calibration for factory driveability & accurate output
- SUPPORTS UP TO 825HP

Available Exclusively from an SCT Dealer near you!

SCT's Quicktune 2005 Tuning Software now gives new and existing Extreme Flash Tuner users complete control over their vehicle's PCM!

# Extreme FLASH TUNER

## FLASH TUNER FEATURES

- Pre-Programmed with up to 3 Custom tunes specifically for your vehicle
- Retains Stock PCM Program for easy restoration back to stock configuration
- Easy installation. No tools necessary, simply connects to your vehicle's OBD-II Diagnostic Port
- Increases Horsepower, Torque, Gas Mileage, and Throttle Response
- Flashes PCM via diagnostic port, no more cleaning or scraping PCM to install chip
- Built-In Computer Controlled Two Step Rev Limiter. Fully adjustable from 2500 rpm - 7000 rpm (1999 - 2004 Only)
- Accepts Custom Tune files direct from SCT or from our network of SCT Dealers nationwide (requires optional software / cable kit)
- Quicktune 2005 Custom Tuning Software Included

## Quicktune 2005

### Quick Tune your own vehicle!

Our new SCT Quicktune 2005 software now allows you to custom tune your own vehicle! Create up to 4 custom tunes at once on your Windows based PC or load and tweak a custom tune from a participating Superchips Custom Tuning Network Dealer. Quicktune's easy to use software screens allow you to easily build your own custom tuned file. Just select your vehicle modifications from our large list of aftermarket modifications and Quicktune does the rest. Creating a custom tuned file from scratch has never been easier. Easy to use Drop-Down menus allow you to mix and match your aftermarket modifications:

- ✓ Premium Gas Performance
- ✓ Race Gas Performance
- ✓ 87 Octane Performance
- ✓ Supercharged Premium Fuel (in some applications)
- ✓ Supercharged Race Fuel (in some applications)
- ✓ Nitrous (in some applications)

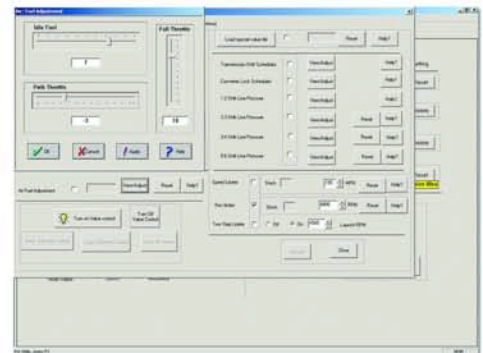

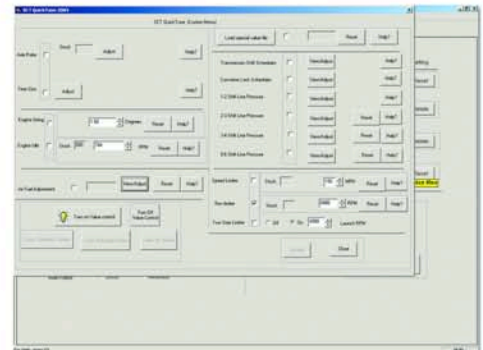

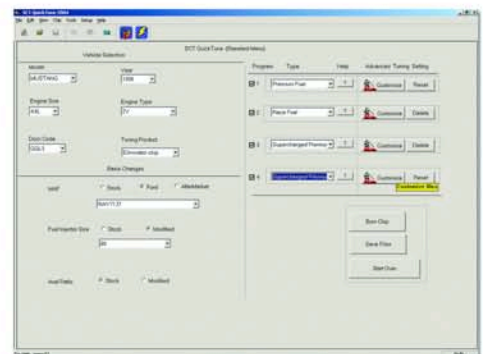

Further customize and fine tune your file by using the Customize screen's drop-down menus:

- ✓ Axle ratio
- ✓ Tire Size
- ✓ MAF Sensor
- ✓ Fuel Injectors
- ✓ Rev / Speed Limiter
- ✓ Two-Step Rev Limiter
- ✓ Engine timing
- ✓ Engine idle speed

SCT's, Industry first, "Tuner Bars" allow you to make simple adjustments to the following:

- ✓ Transmission Shift Firmness
- ✓ Transmission Shift Points
- ✓ Torque Converter Lockup Schedule
- ✓ Idle Air / Fuel Ratio
- ✓ Part Throttle Air / Fuel Ratio
- ✓ Wide Open Throttle Air/Fuel Ratio

Custom Tuning your vehicle has never been this easy!
